

Lynx® Digital Now Available in New Packaging

Lynx Digital papers are now offered in new convenient packaging! Smaller carton size and lower sheet count make it easier to move and access. Resulting in greater efficiency for smaller print jobs and minimizing waste.

All Lynx Digital papers are guaranteed to run on digital production presses, laser and inkjet printers, copiers and plain paper fax machines within the limitations specified by the equipment manufacturer. Lynx Digital is also HP Indigo certified for 5500, 7000 and 7500 presses with a 2 star rating for 280% ink coverage or less. The HP Indigo Substrate Certification Program is a series of tests administered by the Rochester Institute of Technology's Printing Application Laboratory for performance properties including runnability, ink transferability and blanket compatibility.

To maintain quality without sacrificing creativity or losing control over your budget, remember Lynx Digital. Lynx Digital is Forest Stewardship Council™ (FSC®) certified and a member of the Domtar EarthChoice® family of environmentally and socially responsible papers.

Beginning April 16, 2012, please use the new item numbers listed on the attached file, which are also included in the new Domtar 2012 Stock Item Book.

Please contact your Domtar Account Manager or Sales Service Representative for more information.
