

Introducing Blueline by Domtar

Domtar's designer-focused website, *Cougar Paper Community*, is now **Blueline by Domtar**, featuring content for printers and print buyers as well as graphic designers.

The new name is a tribute to the printing process by paying homage to proofing techniques of yesterday and today. It's a gentle reminder that producing printed pieces is a labor of love requiring many steps to get it right. So join the conversation on the *Blueline* blog, submit pieces printed on Domtar paper to our *Cougar Paper Community* Gallery, and join Domtar in celebrating print and paper.

Visit today at www.domtarblueline.com.
