

Xerox® Color Xpressions® Elite – *New and Improved!*

The perfect paper for all your color printing applications just got better with increased bulk and improved opacity.

Xerox Color Xpressions Elite is all that you've come to know and love for rich, crisp color printing with outstanding contrast. Our brightest uncoated digital printing paper with a super-smooth surface now features improved opacity and a higher caliper on cover weights for excellent print performance, handling and feel.

Now all cover weights meet the USPS caliper minimum for 7PT mailing cards and 80# Cover and 100# Cover meet the USPS caliper minimum for 9PT mailing cards to allow for greater flexibility and savings in mailing applications.

The optimized sheet features the same 100 brightness, blue-white shade for accurate color reproduction in your Xerox printer or digital press. Xerox Color Xpressions Elite is engineered for a 100% Performance Guarantee offered by Domtar and is featured on the Xerox Recommended Media List (RML).

Xerox Color Xpressions Elite is certified to the standards of the Forest Stewardship Council™ (FSC®) so you can be assured that the paper you are using contains fiber from well-managed forests and other responsible sources.
