

## Introducing two new FSC® certified and Recycled Office Papers from Domtar

### EarthChoice®30 Recycled Office Paper & EarthChoice®50 Recycled Office Paper

Domtar is excited to announce the addition of two FSC certified office papers that include recycled content. Available with either 30% or 50% post-consumer content, these papers are ideal for offices looking for a paper which is both certified to the standards of the Forest Stewardship Council™ and includes recycled fiber. EarthChoice30 and EarthChoice50 also contain ColorLok® Technology, so not only can you feel good about where your paper came from, but your printing will stand out too with more vibrant colors and bolder blacks!

EarthChoice30 and EarthChoice50 Recycled Office Paper are both FSC certified by the Rainforest Alliance. This certification ensures the products include fiber from responsibly managed forests, controlled sources, and/or verified recycled sources, independently certified to the standards of the Forest Stewardship Council.

These products will be available mid-April. Please contact your Domtar Account Manager to discuss product availability by region.
