

## ***Live on Cougar***

*Be Creative, Be Bold, Be Daring*

Each of us brings a unique perspective to life, and our individual experiences add diversity and beauty to the world around us. Our latest Cougar promotion, *Live on Cougar*, inspires us to go beyond existing, to truly start living. We've collected "Secrets to Live" from artists, philosophers, politicians, scientists, and ordinary people, and printed them on Cougar paper to share with you. From the use of bold fluorescent colors to its creative valley folds, Cougar helps you make an impression the world will remember.

For more than 40 years, printers and designers have trusted Cougar for its outstanding performance, affordability, and consistent runnability on press. Backed by great service and strategically located Regional Replenishment Centers across North America, Cougar turns your best ideas into brilliant printed pieces.

We invite designers to send us their pieces they have created on Cougar. We will showcase them online, along with the works of fellow inspired creators. For more information, visit
