

DOMTAR PULP & PAPER'S
**SUSTAINABLE
FORESTRY
PRINCIPLES**

Domtar

**Conserve
Natural Forests
& Biodiversity**

Domtar collaborates with others to conserve forests for future generations, to protect the biodiversity of natural forest ecosystems, and to promote sustainable management practices that minimize environmental impacts.

**Commit to Local
Communities**

Domtar is strongly committed to the local communities in which we operate. Since 2012, Domtar has donated more than \$6 million dollars to various philanthropic organizations, focusing primarily on literacy, health & wellness and sustainability.

**Empower
Landowners to
Keep Forests
as Forests**

Domtar works closely with leading environmental groups and corporate partners to empower landowners to be sustainable forest managers by providing the necessary resources, expertise and tools.

**Safeguard
Endangered
Forests &
Wildlife**

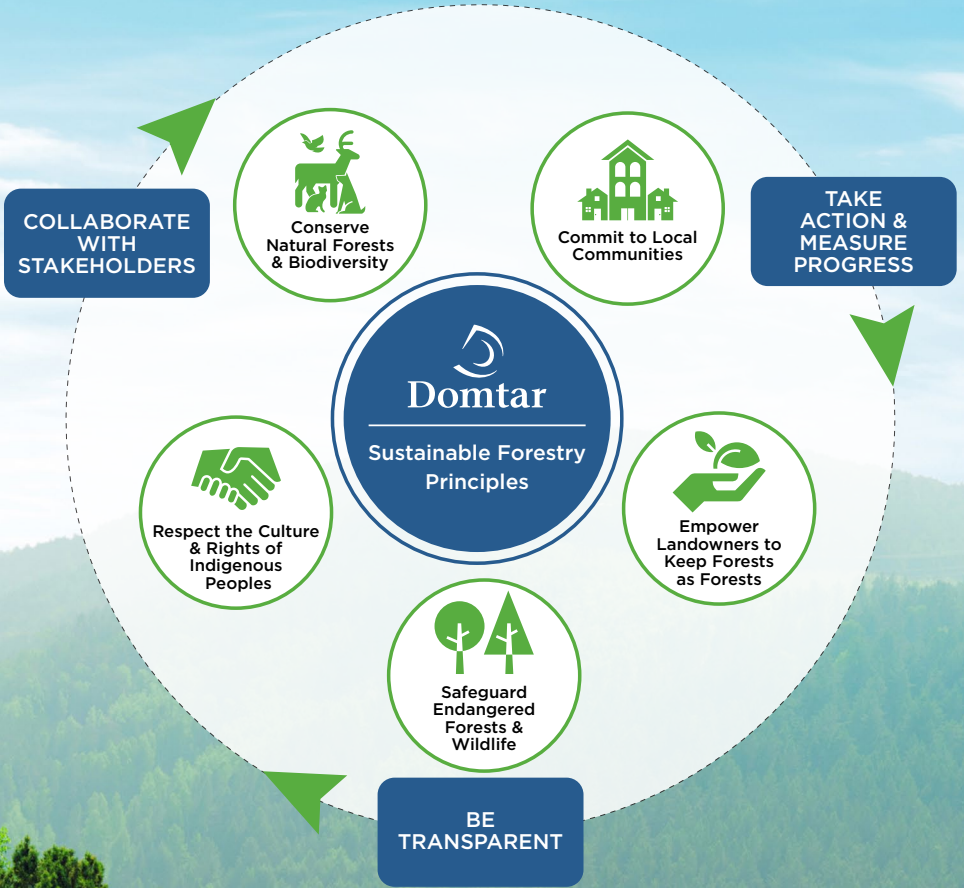

Domtar avoids activities impacting endangered forests and wildlife. We're committed to sourcing wood products that have been certified by third party sustainability standards and avoiding those from High Conservation Value Forests.

**Respect the Culture
& Rights of
Indigenous
Peoples**

Domtar maintains respectful, collaborative working relationships with aboriginal communities in areas where we share public land. Doing so helps ensure the benefits of our operations remain in these communities.

ENSURING SUSTAINABILITY THROUGHOUT OUR PULP & PAPER SUPPLY CHAIN

We believe that the choices we make should leave the forests that we depend on, and the communities we're a part of, better off for the long term. Our Sustainable Forestry Principles help make this belief a reality.

Domtar's Sustainable Forestry Principles govern our fiber procurement by requiring transparency, collaboration and accountability in all of our transactions.
