

Twin Hi-Capacity Small Core Tissue Dispenser

Product Description

The Revo® Twin Hi-Capacity Small Core Tissue Dispenser holds two small core rolls in a side-by-side compact footprint. Sliding door prevents access to the second roll until first roll is used up for 100% roll evacuation and no cross-contamination. Small core rolls mean a higher capacity of product in the dispenser, better shipping efficiencies and more compact storage. Easy-to-refill, durable design has a key lock closure to eliminate loss through pilferage. Offered in **stainless, white** and **black**, Revo® dispensers can also be ordered with a range of design possibilities including branded elements, colors, and finishes – all durably incorporated into the dispenser itself.

Refill the Revo® Twin Hi-Capacity Small Core Tissue Dispenser with premium, long-lasting 2-ply Revo® Hi-Capacity Bath Tissue Rolls (321122), certified to Green Seal®.

Features & Benefits

- High capacity side-by-side design holds two rolls of long-lasting, soft, 2-ply small core tissue, minimizing replenishment
- Easy sliding access door only allows access to second roll when first roll is used, for 100% roll evacuation
- Key lock closure discourages pilferage
- Design is also available with customized elements for your brand
- Compatible with Revo® Refills 321122
